Hp mg 0982 manual

I have a desktop with an MG 0982 Mouse that has a faulty scroll wheel, causing it to skip or jerk when scrolling. The mouse connects wirelessly to my desktop without an external USB dongle. I want to find a replacement mouse with similar connectivity. Can you help me? **Device Compliance and Safety Precautions** 1. **Interference Avoidance**:

This device is designed to not cause harmful interference, and it must accept any received interference, including undesired operation. 2. **Modification Warning**:

Any changes or modifications not approved by the responsible compliance party may void your authority to operate the equipment. **Health and Safety Precautions** 1. **Keyboard Use and Safety**:

Take regular breaks and maintain good posture when using the keyboard. Avoid prolonged use without breaks, as this may lead to wrist pain or loss of motion. 2. **Battery Safety and Disposal**:

Keep batteries out of reach of children, insert them correctly, and avoid mixing old and new batteries. Dispose of used batteries according to local regulations. **Product Specifications** 1. **Frequency Range**:

2.403-2.480 GHz 2. **Modulation Type**:

GFSK 3. **Transmitter Power**:

Max 0 dBm 4. **Power Requirements**:

3Vdc (keyboard and mouse), 5Vdc (dongle) 5. **Battery Life**:

Keyboard: 12 months, Mouse: 5 months 6. **Operating Distance**:

Both devices: 10 meters without signal disturbance or direction limit 7. **Temperature Range**:

Operating: 0°C to +40°C, Storage: -40°C to +65°C **Wireless Connectivity** 1. **Mouse and Receiver Compatibility**:

The wireless mouse only connects with the matching receiver (dongle). Bluetooth connectivity may be available if both devices support it. Please note that this information is provided for general knowledge purposes only. If you have specific questions or concerns, please seek further assistance from the manufacturer or authorized representatives.
